

Model 151

The 151 models have an **American-made case** in either stainless steel or titanium. Any stainless steel version can be polished, brushed, or a combination of both finishes. Titanium cases have a brushed finish only. The thin bezel and large dial are a hallmark of the 151 models, in fact, the dial is larger than watches of a much greater size. The case is thin for its diameter and curves comfortably to the wrist.

Movement Caliber: RGM- Sellita SW300-1 - Swiss-made automatic, 25 jewels, 28,800 vph. Rhodium finish - Cote de Geneve lines and perlage. 52 to 56-hour power reserve.
